

## **PTC Industries Receives ₹100+ Crores Order from BrahMos Aerospace for Critical Titanium Components**

**Lucknow, 21 August 2025:** PTC Industries Limited (herein referred to as “PTC”), a leading manufacturer of high-performance materials and engineered components for various critical and super-critical aerospace and defence applications, is proud to announce the receipt of a significant order exceeding ₹100 Crores in value for supply of critical titanium castings from BrahMos Aerospace Private Limited, renowned for producing the world’s fastest supersonic cruise missile.

PTC’s association with BrahMos dates back to 2019, and the company has consistently supported the programme through the supply of specialised titanium components and raw materials like Titanium mill forms. This latest order represents a significant step forward in the growing partnership between PTC and BrahMos and reflects the shared commitment of both organisations to further the goals of indigenisation and technological self-reliance under the Government of India’s *Aatmanirbhar Bharat* initiative.

Over the years, PTC Industries has established itself as a trusted supplier to key defence organisations supplying mission-critical components to leading defence and aerospace entities including Hindustan Aeronautics Limited (HAL), Defence Research and Development Organisation (DRDO), and BrahMos. The company has consistently delivered high-quality solutions, contributing meaningfully to India’s self-reliance in aerospace and defence manufacturing. In addition to its domestic achievements, PTC also exports Titanium and Superalloy castings to several global aerospace and defence OEMs, including Safran, Dassault Aviation, BAE Systems, and Israel Aerospace Industries (IAI).

**Speaking on this development, Mr. Sachin Agarwal, Chairman and Managing Director of PTC Industries, said:** “We are honoured to announce this significant order from BrahMos Aerospace. It is a strong endorsement of our technological and manufacturing capabilities and long-standing commitment to India’s strategic sectors. This development not only deepens our engagement with one of the country’s most significant defence programmes but also reinforces our broader mission to build advanced materials and critical component manufacturing capabilities in India for the world.”

## About PTC Industries Limited:

PTC Industries Limited is a leading Indian manufacturer of precision metal components for critical applications for over 60 years. Through its wholly owned subsidiary Aerolloy Technologies Limited, the company is manufacturing and supplying Titanium and Superalloy castings for Aerospace and Defence applications within India as well as for exports. The company is substantially expanding its capability by making a multi-million-dollar investment in a new state-of-the-art manufacturing facility at its 50 acres land in the Lucknow node of the Uttar Pradesh Defence Industrial Corridor. This facility will house a fully vertically integrated plant with a Titanium and Superalloy Mill, producing aerospace grade ingots, billets, bars, plates and sheets in critical and strategic materials.
